

Santa Cruz - Bolivia **The Lucano Family**

Greetings BBI family!

We really hope all of you are doing well! We are always having you in our prayers and thoughts. It is for us a great joy to write to you and give you an update of the ministerial work we do together in partnership with you here in Santa Cruz.

January was a month of visitation and rest for us. As many of you know, Daniela, Mateo and I were in Paraguay for a month, and during this time we focus on getting all of our legal papers done so we can start our two years residency now. We are so thankful for your prayers, the Lord helped us to complete all that was needed and on the way all the finances needs were met too.

During the week we had the chance to teach the young people to find their strengths and to channel their talents through service in the local church. Our job was to meet with the new people in the music team, affirm them, and grow them to the next level in their musical skill. This church has grown so much in every area; we feel very happy with the progress they have accomplished since we left three years ago.

We also try to always find an opportunity to share about leadership with people that are already serving in the church. Daniela and I picked up three couples and committed ourselves to be very intentional with them by serving them and adding value to their lives. We spent time with them during the week (three times a week) sharing experiences; affirming them with their strengths, growing in knowledge of the word, etc.

Misael, Daniela & Mateo
Lucano

We are excited to let you know that this year we will start giving the first step toward the vision that brought us here two years ago. This vision will be accomplished through “*Camino de Vida*” (Way of Life Church) a church where God will give us the honor to *love people toward their destinies*. We have already started building relationships and have met with potential leaders that will be part of our team. Pray the Lord will put on our way divine appointments with key people as we are intentional to build the kingdom in Bolivia.

Thank you for always praying with us and for being part of this ministry. We believe your faithful financial support makes the difference for us to be able to enlarge the kingdom of God in South America. Thank you BBI family.

Prayer request:

1. For the Lord to help us build KEY relationships with leaders that will be part of our team to start the church.
2. For the Church “Camino de Vida” we will start in the near future.
3. For all our papers to go through without any problem this week!
