CMI Values

Community Ministries International believes that every place in the world can be improved through service, kindness and love. We seek to discover CMI Member Organizations who are passionate about meeting the needs of the distressed and disadvantaged.

Local Leadership

We believe that local leadership is best suited to strategize and implement community services. CMI seeks to assist by enhancing platforms for needed community projects.

Open Communication

We seek to learn how we can be of the most help by asking questions and listening. With the right partners we will hear the right kind of strategies and services that can make a real difference in the lives of people.

Vibrant Partnership

We value partnership with other like-minded individuals and organizations. No one organization is capable of meeting the vast needs of those in distress. We are open to creative partnerships that expand the reach of community services and stretch every financial resource to do the most good for the most people.

Everyday People

We are not a policy research agency. We are passionate about projects that assist real people at the ground level. CMI projects will always reflect this value.

We affirm the values of CMI and understand that CMI funds or CMI support of any kind is not intended for political causes of any kind. Any such use will immediately terminate the CMI membership.
