PRAYER & FASTING AGENDA 2010

Transform by definition means to change or alter in form, appearance, or nature. However, there is a caution to be aware of regarding transformation. Of the many gurus' promoting transformation programs in our world today, not many, if any of them, teach that real transformation ONLY happens by the working of the only living God, our Father. Just as the caterpillar changes from what it is to what it becomes, God wants to sanctify us and transform us into the image of His Son Jesus Christ. He wants to make us into a better and more holy people, both on the inside and the outside. A new creation... "More than meets the eye".
